## Mini Loft in Rome

Italian Residential Architecture – design by LAD – Laboratorio di Architettura e Design

6 May 2014

### Mini Loft Rome

**Mini Loft**, Viale Parioli, Rome, Italy

*Design: LAD – Laboratorio di Architettura e Design*

This interior design work is located in a building that was once a social housing unit and is now fronting one of the most elegant streets in Rome. The “Ante Operam” situation of the flat was therefore inadequate to the client’s desires.

The main operation was to invert what was living space with the bedroom. During the renovation of the new living room, an old wooden roof was found on the top of the old ceiling: it was restored and painted in white.

The lamp is the famous “Arco” by Achille Castiglioni, the applique is the “Tolomeo” by Michele De Lucchi.

Francesco Napolitano, Architect
